Continuation of 4(e) Other: Prosecution on the merits was closed in Office action dated 06/18/07. In the last Office action dated 10/18/07 applicant was advised that prosecution was previously closed and the presented amendment dated 09/18/07 was improper because of such closure of prosecution and that the claim amendments were also not in compliance with claim amendment marking practice (see Rule 121). The instant amendment submitted 11/14/07 also is not in compliance with Rule 121, and presents claim amendments not permitted and which do not match the original preliminary amendment to claims dated 01/23/06. Note that this most recent amendment to claims has now changed claim 7 to be a multiple dependent claim, and also claim 12 to be amended to be a multiple dependent claim which also improperly depends upon an earlier multiple dependent claim. This latest amendment not only fails to comply with the last Office actions but introduces new issues. Failure to properly correct the listing of the claims, and to properly respond to this Office action will result in the abandonment of this application. Note that any substitute specification submitted must not include a listing of the claims.
